

DIRECTIONS:

This is a highly concentrated product. Do NOT use without diluting.

It is recommended to set the dilution at between 120:1 and 200:1 dilution.

Dilutions may vary depending on water quality and desired effect.

Foam should have the consistency of wet shaving cream.

CHERRY BRUSH

Concentrated Foaming Detergent

Cherry Brush is a concentrated high foaming detergent for use in brush-type car and truck wash systems. It provides excellent lubrication for the brushes increasing the lifetime of the brushes and providing minimal wear on the automotive finish.
