

DRAIN CARE

Super Zyme

Preventive Maintenance Drain Line Treatment

Environmentally Safe: Salmonella & E. Coli Free

Non-Acid/ Non-Toxic/ Non-Corrosive

Reduces and Eliminates Most Odors

Specially Formulated Microbial Solution

Super Zyme will reduce downtime caused by slow running or blocked drains. This is accomplished by the natural action of the solution converting grease, and protein based waste into water and carbon dioxide. It will not cause internal drain pipe deterioration.

Super Zyme is a bio-remediation solution that will withstand harsh chemical environments such as: X-Ray lab, MRI, CAT scan, and X-Ray processor drain systems.
