Wet Water

Low Foam Wetting Agent & Penetrant

CAUTION
KEEP OUT OF REACH OF CHILDREN
Net Contents: 1 gal (3.79 L)

Wet Water is a highly concentrated wetting agent and penetrant. It makes water "wetter" by reducing surface tension whichs provides better penetration. It can used for dust control, as a soil conditioner to aid in agricultural products.

1851-4X1

CAUTION
Dispose of contents/container in accordance with federal, state and local regulations.

INGREDIENTS (CAS#): Water (7732-18-5), Nonylphenol Ethoxylate (9016-45-9), DDBSA (68584-22-5), Triethanolamine (102-71-6).
