

Germ-A-Cide 64

Per EPA stamped
label 04/06/2021

ONE-STEP DISINFECTANT GERMICIDAL DETERGENT AND DEODORANT

Disinfectant - Pseudomonacidal¹ - Staphylocidal¹ -
Salmonellacidal⁴ - Bactericidal - Fungicidal -
Mildewstatic - *Virucidal

Active Ingredients:

Didecyl dimethyl ammonium chloride.....	2.54%
n-Alkyl (C ₁₄) 50%, C ₁₂ 40%, C ₁₆ 10% dimethyl benzyl ammonium chloride.....	1.69%
Total:.....	95.77%

Inert Ingredients:

100.00%

DANGER

See side panel for Precautionary Statements

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present after first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Use Germ-A-Cide 64 in: Restaurants, Schools, Bathrooms, Dressing Rooms, Locker Rooms, Shower and Bath Areas, Exercise Facilities, Kennels, Pet Shops, Zoos.

Use Germ-A-Cide 64 on washable hard, nonporous surfaces of Countertops, Bathroom Fixtures, Floors. Germ-A-Cide 64 is effective at eliminating odors on porous surfaces such as drapes, carpets, bedding, shower curtains and non-porous surfaces such as walls and floors. Excellent for fire restoration.

SI used no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

This product is not for use on medical device surfaces.

DIRECTIONS FOR USE

Prepare a fresh use-solution daily or more often if the solution becomes visibly dirty or diluted.

MILDEWSTATIC DIRECTIONS: For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities follow disinfection directions.

SURFACE DISINFECTION/DEODORIZING DIRECTIONS: Remove visible soil deposits from surface, then visibly wet surface with a use-solution of 2 ounces of the concentrate per gallon of water. Use 8 oz per gallon of water to kill Adenovirus type 7. The use-solution can be applied with a cloth, 'mop' sponge, or coarse spray or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain visibly wet on surface for a minimum of 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.

For SARS-CoV2, treated surfaces⁵, must remain visibly wet for 1 minute.

Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes.

For Human Coronavirus, treated surfaces must remain visibly wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Wipe dry with a clean cloth, sponge or mop or allow to air dry.

KILLING HIV-1 (AIDS VIRUS) AND HCV/HEPATITIS C VIRUS ON PRECLEANED, HARD NON-POROUS ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS

INFORMATIONAL DIRECTIONS: For use in health care settings or other settings in which there is an expected likelihood of contact with blood / body fluids, and in which the surfaces / objects likely to be associated with the potential for transmission of Human Immunodeficiency Virus Type (HIV-1) or Hepatitis B virus (HBV) or Hepatitis C virus (HCV).

PERSONAL PROTECTION: Disposable protective gloves, gowns, face masks and eye coverings, must be worn during all cleaning of blood / body fluids and during decontamination procedures.

Let air dry. Repeat application weekly or when growth reappears.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, mop, sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Influenza Virus Type A, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Influenza Virus Type B, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Herpes Simplex Virus Type 1, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Herpes Simplex Virus Type 2, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Human Immunodeficiency Virus (HIV-1) or Hepatitis C Virus (HCV), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Hepatitis B Virus (HBV), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Hepatitis C Virus (HCV), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Salmonella Enteritidis, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Escherichia Coli, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Staphylococcus Aureus, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Kandida Albicans, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Pseudomonas Aeruginosa, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Acinetobacter Baumannii, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Methicillin-Resistant Staphylococcus Aureus (MRSA), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Escherichia Coli O157:H7, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Vibrio Vulnificus, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Listeria Monocytogenes, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces.

DISINFECTION/CLEANING/DEODORIZING DIRECTIONS: Remove visible soil deposits from surface, then visibly wet surface with a use-solution of 2 ounces of the concentrate per gallon of water. Use 8 oz per gallon of water to kill Adenovirus type 7. The use-solution can be applied with a cloth, 'mop' sponge, or coarse spray or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain visibly wet on surface for a minimum of 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.

For SARS-CoV2, treated surfaces⁵, must remain visibly wet for 1 minute.

Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes.

For Human Coronavirus, treated surfaces must remain visibly wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Wipe dry with a clean cloth, sponge or mop or allow to air dry.

KILLING HIV-1 (AIDS VIRUS) AND HCV/HEPATITIS C VIRUS ON PRECLEANED, HARD NON-POROUS ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS

INFORMATIONAL DIRECTIONS: For use in health care settings or other settings in which there is an expected likelihood of contact with blood / body fluids, and in which the surfaces / objects likely to be associated with the potential for transmission of Human Immunodeficiency Virus Type (HIV-1) or Hepatitis B virus (HBV) or Hepatitis C virus (HCV).

PERSONAL PROTECTION: Disposable protective gloves, gowns, face masks and eye coverings, must be worn during all cleaning of blood / body fluids and during decontamination procedures.

Let air dry. Repeat application weekly or when growth reappears.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Influenza Virus Type A, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Influenza Virus Type B, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Herpes Simplex Virus Type 1, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Herpes Simplex Virus Type 2, treated surfaces must remain visibly wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Human Immunodeficiency Virus (HIV-1) or Hepatitis C Virus (HCV), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Hepatitis B Virus (HBV), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Salmonella Enteritidis, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Escherichia Coli, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Vibrio Vulnificus, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Kandida Albicans, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Pseudomonas Aeruginosa, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Acinetobacter Baumannii, treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

For Methicillin-Resistant Staphylococcus Aureus (MRSA), treated surfaces must remain visibly wet for 10 minutes. Wipe dry with a clean cloth, sponge or coarse spray. Make sure to visibly wet all surfaces as walls, floors and table tops. Apply use-solution of 2 ounces per gallon of water with a cloth, 'mop' sponge or coarse spray. Make sure to visibly wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.
