

WARE WASHING

Det-Ware

Automatic Dishwash

Anti-Scale Additives

Soil Suspending Agents

Non-Foaming

Highly Concentrated

Det-Ware Automatic Dishwash is a non-foaming, alkaline dishwash for use in automatic dishwashing units. It is highly concentrated and economical.

Det-Ware Automatic Dishwash contains soil suspending agents to prevent grease and food from re-depositing on the surface of the dishes.

Det-Ware Automatic Dishwash also contains an anti-scale additive that will significantly reduce the amount of descaling that is needed in the dishwashing unit.

3 - 6 mL per gallon Injection Rate
