LETTER OF GUARANTEE

Detco No-Rinse Sanitizer
Product # 0550
Conforms to USDA rating D2

This product is authorized for use in those establishments operating under the Federal Dairy, Meat and Poultry Inspection Program.

This product may be used as a sanitizer for all surfaces not always requiring a rinse.

Before using this product, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not required following use of this product for sanitizing previously cleaned hard surfaces provided that the surfaces are adequately drained before contact with food so that little or no residue remains which can adulterate or have a deleterious effect on edible products. These compounds may be used for microbial control on ceilings, floors, and walls at concentrations considerably higher than those allowed for sanitizing food contact surfaces without a potable water rinse unless, in the opinion of the Inspector in Charge, such use may result in contamination of food products. A potable water rinse is required following use of this product under conditions other than those stated above. This product must be used at dilutions and according to applicable directions provided on the EPA registered label.

This product does not contain any of the following allergenic substances to the best of our knowledge: milk (milk products), eggs, fish, crustacean shellfish, tree nuts, peanuts, gluten, sesame seeds, mustard seeds, sulfites, wheat and soybeans.
